

BDK22 STROBE LIGHT

Zone 22

Full catalogue available on our website: www.inpratex.com

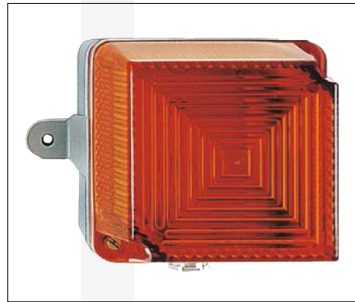

ATEX VISUAL SIGNALLING DEVICES ZONE 22 (dust)

In especially noisy surroundings it is often necessary to use optical signals for warning and indicating purposes.

The BDK 22 Strobe Light emits clearly visible signals. The sturdy housing conforms with protection class IP54 and allows for indoor and outdoor applications.

This strobe light is available with different dome colours.
