## ATEX GROUNDING CLAMPS

ZONES 1, 2 (gas) & 21, 22 (dust)

The HM-ES hand magnet is the ideal solution when safe earthing of drums and containers is required, but the space for a normal earthing clamp is not available.

The flat-fitting housing can either be mounted on top of the drum lid by magnetic force or held on the side of the drum by magnetic force.

The two tips of the hand magnet connect to the painted base of the barrel by slight manual rubbing, thus establishing a secure connection to the good earth.

This magnet is designed as a simple earthing solution without monitoring.
