

Q.CRODILE MAGNET X1 GROUNDING CLAMP SINGLE-POLE

Zones 1, 2, 21, 22

Full catalogue available on our website: www.inpratex.com

ATEX GROUNDING CLAMPS

ZONES 1, 2 (gas) & 21, 22 (dust)

The Q.Crodile Magnet X1 is the ideal solution when safe grounding of drums and containers is required, but the space required for a normal grounding clamp is not available.

The flat housing can either be mounted on top of the drum lid using magnetic force or held on the side of the drum using magnetic force. The two tips of the hand magnet connect to the lacquered base of the drum with a little manual rubbing, creating a secure connection to good earth.

Please note that this magnet is designed as a simple grounding solution without monitoring.

EU-Type Examination Certificate
